Professional Summary

Enthusiastic Web Developer with a background in customer service, skilled in HTML, CSS, and JavaScript. Passionate at designing web-based applications with creative and modern designs. As an emerging Web Developer my goal is to apply my current skills and knowledge while also looking to expanding to new technologies.

Projects

Note Taker | [Github](#) | [Link](#)

- Summary: Allows the user to save comments. Using express.js to configure the routes allowing you to save a comment into a JSON, which is then used to get and post onto the site.
- Tools: Html5, CSS3, JavaScript, express.js, node.js, JSON

Ampli-Fi | [Github](#) | [Link](#)

- Summary: Group project aimed for oddly satisfying content to elevate your mood. Utilized mongoDB to save our forum comments to save to our server and posted it to the site, with your username and comment. Also uses Tidio to have a chat system.
- Role: Back-end server processes
- Tools: Tidio, Google Maps API, Mongoose, Send Grid API, React, Bulma-css, Foursquare API
